Join us for a CREED Event!

CREED Learning Hub: Component One - Policies and Systems Learning Event

July 11, 2022 3-4 p.m. EDT

Email us for More Information

As part of CREED's efforts to build racial and ethnic equity (REE) in international development, we are launching our Learning Events Series with a focus on Component One (Policies and Systems) of the CREED REE Pledge. While there is much documentation publicly available about building diversity and inclusion, strategies for developing REE approaches at the organizational level are at early stages. In this event, we will hear from the CREED Learning Hub Component One team about their aspirations and considerations in building a measurable REE policy. Specifically, we will: (i) discuss the purpose of building REE and the rationale for creating an REE policy, and (ii) dialogue about how to create an REE policy.

In the spirit of CREED and learning communities in general, this event will provide a safe space for us to learn from each other as we work towards fulfilling our commitment of signing the REE Pledge. This event will *not* be recorded; instead, key takeaways will be shared after the event.

Event Agenda
